BANKS AND BANKING

1. Acharya, Viral V.

Quest for restoring financial stability in India / by Viral V. Acharya.. - New Delhi: Sage Publications, 2020. Iv,330; ISBN : 978-93-5388-489-5. 332.10954 Ac4Q Q0 51491

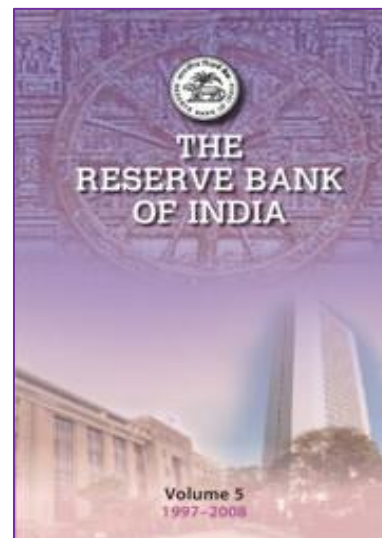

Book Description: Beyond the headline-grabbing issues, the Indian economy is struggling to solve a critical problem: How to restore and maintain financial stability on a durable basis. In this book titled, Quest for Restoring Financial Stability in India, Former Deputy Governor of RBI, Dr. Viral V. Acharya, talks about his quest for restoring financial stability in India and offers a concrete plan for sustained improvement. Dr Acharya shares a feasible plan to address the recapitalization needs of public sector banks, offering solutions on how to improve credit allocation by credit intermediaries and establish viable and efficient capital markets. Elucidating the need-of-the-hour reforms, this book also raises several stark and unanswered questions related to the re-emergence of fiscal dominance in India, not just of monetary policy tools but also of banking regulations. It makes a persuasive case for striking the right balance between the government, central bank, private sector and markets, in order to improve long-run growth prospects for the real economy.

2. Roy, Tirthankar

Reserve Bank of India / by Tirthankar Roy.. - Cambridge: Cambridge University Press, 2022. V.5: xxxi,753; Vol.5: 1997-2008. ISBN : 978-1-316-51132-9. 332.110954 R81R R2 51495

Book Description: The fifth volume on the history of the Reserve Bank of India covers the years from 1997–98 to 2007–08. During this period, it introduced key institutional and financial market reforms in a rapidly changing economic environment and facilitated faster integration of the Indian economy. The Bank rationalised and introduced innovative instruments of monetary control; strengthened regulatory and supervisory processes for both banking and non-banking sectors; adjusted its approach to achieve and sustain financial stability; focussed on building financial market institutions and infrastructure; and

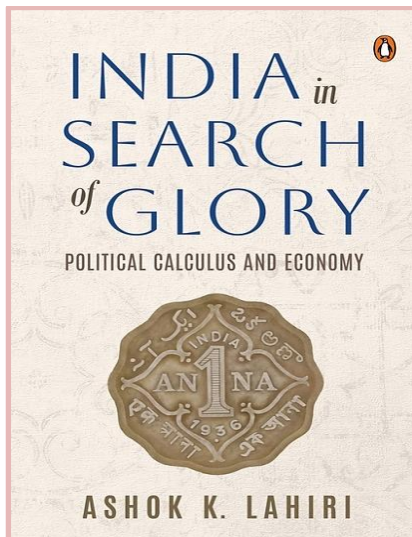

spurred legal and other amendments in the larger public interest as also for achieving flexibility with stability in the economy. It also worked to improve the rural credit system, financial inclusion and customer protection. This volume is a narrative history of the Bank and also a rich resource for understanding how an emerging market central bank manages change and shapes the economy to face future challenges.

ECONOMICS

3. Lahiri, Ashok K.

India in search of glory: Political calculus and economy / by Ashok K. Lahiri.. - Gurugram: Penguin Random House India, 2022. xxx,790; ISBN : 978-0670092079. 330.954 L13I R2 51478

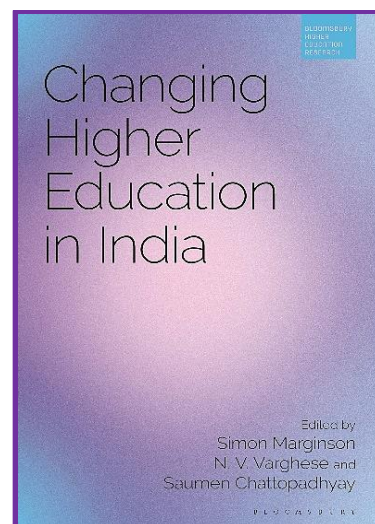

Book Description: India and the Indians have made some progress in 75 years after Independence. The number of literates has gone up. The Indians have become healthier and their life expectancy at birth has gone up. The proportion of people below the poverty line has also halved. But

the shine from the story fades when India is compared with that of the East Asian Tigers and China. It looks good but not good enough. India looks far away from the glory it seeks. This issue forms the core subject matter of this book. It tries to argue why India could not achieve more and what all it could have achieved. It paints a picture of its possible future and highlights the areas that need immediate attention.

EDUCATION

4. Changing higher education in India / edited by Saumen Chattopadhyay, Simon Marginson and N.V. Varghese.. - New Delhi: Bloomsbury Publishing, 2022. xxiv,266; Bloomsbury higher education research. ISBN : 978-93-54358-73-9. 378.54 C39C R2 51496

Book Description: Higher education is vital to India's future, creating democratic citizens and a modern economy, building communities and cities and conducting research the country needs to continue its advance. Yet, with two thirds of people of

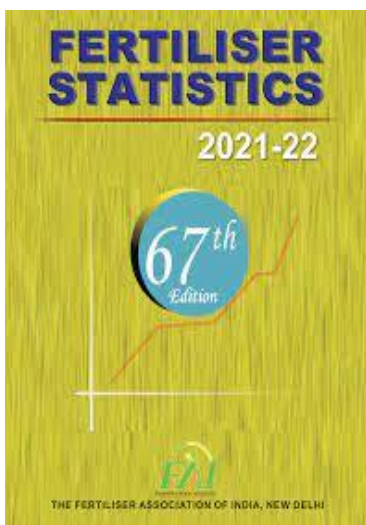

India living in rural areas and urban incomes below the world average, in a culturally diverse country, the tragic effects of the Covid-19 pandemic and profound problems of regional, social and gender inequalities, higher education faces many challenges. This book brings together experts and emerging researchers from India and the UK to discuss these issues and to explore positive solutions. The team shine the spotlight on financing and funding, governance and regulation, sector organisation and institutional classification, equity and social inclusion, the large and poorly regulated private sector, Union-State relations in higher education, student political activism, and internationalisation.

FISCAL FEDERALISM

6. Singh, N.K.

*Recalibrate: Changing paradigms / by N.K. Singh and P.K. Mishra.. - New Delhi: Rupa Publications, 2022. xviii,323;
ISBN : 978-93-5520-280-2.
336.1850954 Si6R R2 51480*

Book Description: The world today is in constant flux. However, rarely has the pace of change been so multidimensional; faster than our ability to adjust. Geopolitics is changing; the land wars in Europe are evolving; technology is offering newer possibilities every day; climate change is making long-term survival look difficult; and the biology of the pandemic continues to surprise us. None of this may be new, but their constellation is perhaps unique.

While there may be new aspects, different combinations and evolving dynamics, we have the collective experience of centuries to delineate a path forward.

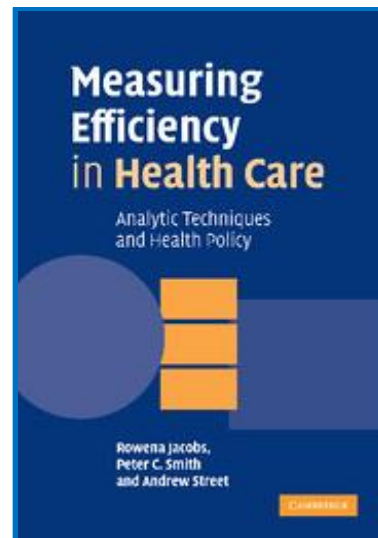

Recalibrate: Changing Paradigms, by N.K. Singh with select insights by P.K. Mishra, attempts to look back in order to look forward—not because the past allows for a linear extension or extrapolation into the future, but because it offers building blocks with which we can be pragmatically creative in navigating the twenty-first century and beyond.

HEALTH CARE

7. Jacobs, Rowena

Measuring efficiency in health care: Analytic techniques and health policy / by Rowena Jacobs, Peter C. Smith and Andrew Street.. - Cambridge: Cambridge University Press, 2006. xvii,243; ISBN : 978-0-321-85144-2. 362.1 J12M P6 51510

Book Description: With the healthcare sector accounting for a sizeable proportion of national expenditures, the pursuit of efficiency has become a central objective of policymakers within most health systems. However, the analysis and measurement of efficiency is a complex undertaking, not least due to the multiple objectives of health care organizations and the many gaps in information systems. In response to this complexity, research in organizational efficiency analysis has flourished. This 2006 book examines some of the most important techniques currently available to measure the efficiency of systems and organizations, including data envelopment analysis and stochastic frontier analysis, and also presents some promising new methodological approaches. Such techniques offer the prospect of many new and fruitful insights into health care performance. Nevertheless, they also pose many practical and methodological challenges. This is an important critical assessment of the strengths and limitations of efficiency analysis applied to health and health care.
