NIPFP is a premier research institution in public economics and policy. The institute has made significant research contribution in the areas of revenue and taxation, fiscal management, public expenditure, macro-economic policies, fiscal federalism and other policy issues both at the Central and the State-level. Being the largest think-tank on public economics and policy in India, the institute faces an overwhelming demand for research in these areas. NIPFP undertakes training programmes on various aspects of public policy and public economics. Participants of these training programmes include government officials, university and college teachers, researchers and journalists from India and other South Asian countries. NIPFP also extends its support to public policy formulation not only through research, but also through representation of NIPFP faculty in various committees and commissions of the Central and State governments.

National Institute of Public Finance and Policy (NIPFP) and the Department of Economic Affairs (DEA), Ministry of Finance, have a long-running research programme, under which NIPFP provides research support to DEA and assists in analysing policy alternatives on an ongoing basis.
